Valid suggestions conveyed to Board of Studies Meeting

Sr. No.	Valid suggestions conveyed to Board of Studies
1	In addition of syllabus Vocational Education or skill-based education is designed to improve the skills and employability
2	Syllabus can be reduced as it is too vast for one semester
3	Lengthy syllabus
4	Delete those extra theory part which is not that much important, Reduced the assignment works students can't do that before the semester and the professors give the assignments and others works before some days are left for the semester! Reduce or delete if you can!
5	It's very vast ...plz delete irrelevant contents.

Overall Suggestions	<p><u>Remark: According to the received feedback, there were no any paper wise suggestions; hence the syllabus can be assessed on the basis of received overall suggestion.</u></p> <ul style="list-style-type: none">• Biotechnology finds application in a variety of fields such as Animal Husbandry, Growth of Vaccines and Medicines, Agriculture, Pollution Control, Energy Production and Conservation.• Practical and theory syllabus is well managed• Syllabus is Good• Focus more time on practical knowledge• Topics in theory subjects that have practical should be conducted simultaneously for better understanding.• Use of more videos for better understanding more practical based topics.• Syllabus should not be very vast and it should be related to only biotechnology. It should be related to introduction of biotechnology and it's applications only and not going much into deep understanding as it is only undergraduate course it doesn't need this much to understand and other things should be eliminated.• Need to be more serious regarding practicals• Relevant knowledge on how to take a job, what kinds of jobs are in this field is required.• Some interdisciplinary aspects could be included• All the content are good coverd all academic as well as industry need for job sickers and those who are preparing for competitive exams• Syllabus is very precise and as per the current need in the field of biotechnology.• Kindly focus more on molecular techniques for practical Like synthesis on RNA or proteins Different synthetic media How initiation, transformation are done practical PCR technique• For UG-More application based learning should be incorporated - Instrumental and Hands on training Practicals incorporated -Advanced instruments like HPLC, HPTLC should be incorporated.• UG- The syllabus has to be more detailed to prepare the students for the industrial exposure required.• Industrial exposure along with lectures from industrial expertise help the students to prepare for the next step to enter in the industry.• Syllabus is well organised to develop skills of associates• Need Hands on Instrument training during practical and industry level education & development

Python Programming:

- Deleted Module: Multithreading topic in python
- Added Module : Libraries like matplotlib, numpy, pillow, OpenCV

Data Structure:

- Added Module : Recurrence relation and Fibonacci search techniques and B++ tree concept.

Computer Network:

- Added Module :Introduction to Cloud Computing, Configure NTP,Configure log message to the syslog serve

Advance SQL:

- Deleted Module : Remove the unit as already introduced in DBMS
- Added Module : Introduction to Big data Analytics,

Core JAVA:

- Added Module : Serialization, GridBag Layout, Java code for serialization and deserialization of a Java object,

Introduction to Embedded System :

- Added Module: Embedded Firmware design and development, Study of hardware components

Software Engineering:

- Added Module: Software Development Process Models.
- Deleted Modules: Interface Specification topic deleted.

Computer Graphics and Animation:

- Added Module: Introduction to animation and construction of an animation sequence .
- Deleted Module: The Flood fill algorithm and boundary fill algorithm .

Suggestions	
Syllabus	<ul style="list-style-type: none"> • Sem III
	1 All chapters are added properly no need to add or delete the topic
	2 basic of taxonomy trends in biosystematics and dimensions of speciation should be added
	3.Chromosomal theory of inheritance add other methods
Specific topic	<ul style="list-style-type: none"> • Sem III
	1 Study of basics of viruses can be added
	2 Griffith experiment should be removed as it is covered in 12 th standard
	3 Origin and evolution should be deleted and shifted to fybsc
	4
Syllabus	<ul style="list-style-type: none"> • Sem IV
	4 Give more emphasis on aquaculture
	5 Delete the subtopics which are covered in XII and FYBSc
Specific topic	<ul style="list-style-type: none"> • Sem IV
	1 require animation video, some small practicals which can be performed at home.
	2 Syllabus is too lengthy ,contains much of information not required
	3 Syllabus is complex and relevent to daily life also
General feedback	SEMESTER III and SEMESTER IV
	1 Syllabus is good, as per the need of society
	2 Syllabus is helpful for students' employability it provides basic skills for employment
	3 Syllabus is very good. Your students understand the purpose and procedures of your course, the more likely they are to enter enthusiastically into the learning partnership you offer them.
	4 Syllabus is as per current scenario
	5 Syllabus is easy to understand
	6.syllabus is too much and bulky to understand so need to be little easy at this level

Head of the Department

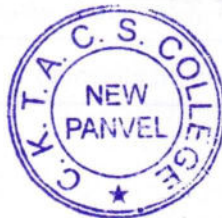

Principal,
C.K.Thakur A.C.S College

Stakeholder	Suggestions
Employer	Deletion : Need to reduce it (Quantum mechanics syllabus is very vast to endulge in a single sem.) Addition : semiconductor syllabus like LED topic must be added
Teacher	Addition: LED , solar cells in sem III Paper II. Relativity Basics And Examples in Sem 4 Paper III Low temperature physics can be included Acoustics Of Buildings Can Be Replaced By Nano Science Deletion : Some part of quantum mechanics may be reduced form SEM IV paper 2 as the section is quite lengthy for students.Shift Registers and Counters
student	Uses of coupled oscillators in real life. It helps the students to understand the concept of coupled oscillator. Because only the derivation and equations confuse the students mind and they skip that point or they study only for the exam point of view without understanding why they learn this.

Subject: Business Economics- Paper- III

Valid suggestions conveyed to Board of Studies Meeting

Sr. No.	Valid suggestions conveyed to Board of Studies
1	Add some more contents on agricultural base.
2	MSME Act 2006, it's updation and current Government Schemes for entrepreneurship and skill development can be added in the Module no. 2
3	Should Focus On New Trend Of Market And Changing World affairs, like How SWIFT Payment is been Controlled By Group of countries (As we have seen these group of countries removed Russian Federation From SWIFT) and what India is doing against it Like promoting NPCI and building one payment system for Indian trade with foreign nations. Like this there are many recent changes happened! So it's better to focused on those rather adding more and more of past like we don't need 4-5 pages upon the history of 1990s when LPG like things accepted by India we have already learnt it in past. So just design the syllabus more on global events, more on balance of payments, more on How NPA destroying our economy, more on current account defect issue, and so on.
4	Banking sector related topic.
5	Remove SAARC

Department of Chemistry

Academic Year: 2022-23

Class: T.Y.B. Sc.

Course: Organic Chemistry

Valid suggestions conveyed to Board of Studies in Chemistry

Paper-I

1. Recent research related experiments must be included.
2. Value based and skill-based content should be added
3. The contents of the syllabus are very good and upto the mark as far as the graduation level is concerned.
4. Info regarding newly developed instruments with its application

Paper-II

1. Addition of industrial skill development topics.
2. Addition of more detailed information of superconductivity.

Paper-III

1. Addition of any content to existing syllabus

- a. Accommodate more practicals and purification techniques which industries use.
- b. Biomolecules topics should be together.
- c. Nano material science
- d. Introductory part of retrosynthesis can be added along with the existing synthesis
- e. Chemistry of enolates
- f. Environment, safety aspects on chemical product and reaction
- g. Extra topic in Agrochemicals

2. Deletion of any content from existing syllabus

- a. Instead of organometallics, NGP content to be increased

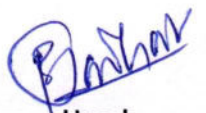

- b. Polymer unit can be omitted and can be added to F.Y.B.Sc.as it is very basic.
- c. Remove the agricultural chemistry add other topic like retrosynthesis

Paper-IV

1. Topic related Environmental Chemistry and Pollution control need to be added;
2. Syllabus is Heavy. Molecular Fluorescence and phosphorescence Spectroscopy need to be removed.

Paper-V

1. Syllabus must be designed in a such way that it will be helpful for student those who are interested in competition exam like JAM CSIR net set gate etc.
2. Add synthesis of one of the antimalarial drugs.
3. Complex structures which are not important in daily life.
4. Syllabus need some research techniques used in dye industry... like analytical etc.

Overall Suggestions	<p><u>Remark: According to the received feedback, there were no any paper wise suggestions; hence the syllabus can be assessed on the basis of received overall suggestion.</u></p> <ul style="list-style-type: none">• Very well-designed syllabus Easy to understand• Some changes in the syllabus are required some units according to lecture allotted have less content. While overall syllabus is good.... It will be beneficial for the students.... Some practical hands-on training on techniques which are required for industrial purposes.• More employability skills could be included in the Syllabus to generate more internship options• No suggestions. It was a good syllabus for the UG. We had learn a very good things in that syllabus.• It is really good thing that Biotechnology department reviews the syllabus according to the situations that we face in our environment. Reviewing of syllabus keeps us updating in on-going situations of the world.• There is no need to change the syllabus.• The overall syllabus is very good.• No , everything is good, syllabus also good comparing to TY bsc• Teachers teaching skill is very excellent. Teachers cover all topics in presentation and in lecture. Students completely understand lecture and theory subject.• Overall a very balanced syllabus for final year UG students. One small suggestion I'll give is to include a small introduction to clinical trials and their origins around the pharmacology topic• More employability skills could be included in the Syllabus to generate more internship options• More avenues for entrepreneurship can be included• The syllabus is too vast to finish in a particular semester.• Some changes in the syllabus are required some units according to lecture allotted have less content. While overall syllabus is good.... It will be beneficial for the students.... Some practical hands on training on techniques which are required for industrial purposes.• Syllabus at par with expectations of industry.• Good syllabus• For UG-More application based learning should be incorporated -Instrumental and Hands on training Practicals incorporated -Advanced instruments like HPLC, HPTLC should be incorporated• UG- The syllabus has to be more detailed to prepare the students for the industrial exposure required• Industrial exposure along with lectures from industrial expertise help the students to prepare for the next step to enter in the industry.• Syllabus is well organised to develop skills of associates• Need Hands on Instrument training during practical and industry level education & development

Software Project Management

Added modules : Emerging Trends in Software Project Management

Internet of Things:

Added Module: Introduction to Arduino

Advance Web programming:

Added modules : Introduction to JQuery , JQuery syntax, JQuery Selector , JQuery events function , effects with JQuery

Deleted Module: DOT.NET Programming tools: Visual studio gallery, LINQPad, SQL

Linux System Administration:

Added Module : Booting and shutting down, The File System

Deleted Module: Setting Up a TFTP and DHCP server for PXE Boot.

Enterprise JAVA:

Added Module: Java Server Faces, Features of JSF.

Software Quality Assurance:

Added Module: Web Testing

Security in computing :

Added Module: Introduction to Cloud Computing, Implement Xen virtualization and Xen Centre.

Business intelligence:

Added Module : Data warehousing, Basics in Fuzzy Logic, Practical's related to fuzzy Logic

Janardan Bhoqol Shiksha Prasarak Sanstha's

CHANGU KANA THAKUR

Arts, Commerce and Science College, New Panvel (Autonomous)

Re-accredited 'A+' Grade by NAAC (3 Cycle CGPA 1.61) College with Potential for Excellence Status Awarded by
University Grants Commission, 'Best College Award' by University of Mumbai

Internal Quality Assurance Cell (IQAC)

Academic Year: 2022-23

Principal of Geographical Information Systems:

Added Module : Principles of web GIS and its significance, Introduction to
Bhuvan, ISRO software Bhuvan 2D & 3D, Special applications in Bhuvan.

Deleted Module: GIS and Application models, Open GIS Standards, GIS Application and Advances.

IT Service Management:

Syllabus updated as newer version of ITIL foundation i.e. V5 is released.

Note : Attach List of Valid suggestions conveyed to BOS in separate sheet & endorsed by Principal.

Suggestions	
Syllabus	Sem V
	1. General Pathology is not required at third year level
	2. Practical s Developmental biology in VI Semester so shift the theory to Semester VI
	3. Elaborate the topic Transplantation immunology
Specific topic	Sem V
	1. Add Auto immune and immunodeficiency disorder
	2. Specific, new vaccines should be added
	3. Add type study Earthworm for the third year students
Syllabus	Sem VI
	1. Add Developmental biology in vi Semester
	2. Add type study shark for VI Semester
General Feedback	Sem V and VI
	1. Focus on applied Zoology
	2. Syllabus is good
	3. Try to go for experiential learning more

Academic Year: 2022-23

Name of the Department: Chemistry

Class: M.Sc. II (Organic Chemistry)

Paper- I, II, III & IV

Valid suggestions conveyed to BoS in Chemistry

Paper-I

1. In stereochemistry part point 3.1 should be removed and instead of that small introduction to stereochemistry should be added.
2. Add nanotechnology or nano chemistry concept.
3. Add organic synthesis using nanoparticles as catalyst.
4. Nanotechnology exposure in organic chemistry will enhance the skills.

Paper-II

1. Delete specific topic (enamine Ylides) and add some theory related part.
2. Click chemistry part should be in more detail because it will be very helpful for further study.
3. Add Passerini reaction in multicomponent reaction.

Paper-III

1. Synthesis in natural products is not required as it is long plan procedure and synthesis.
2. Add some topic (natural pigment) by using natural pigment making cosmetic products.
3. Prostaglandin part should remove and added in biogenesis.
4. Delete some synthesis which is very lengthy and tricky to understand.
5. Delete the synthesis topic from natural products.
6. In natural products two remove Reserpine add something else.
7. Please removed natural products.

Paper-IV

1. Biomolecules-IV should replace with other topic relevant to industry.
2. Add some more topics of nano catalyst.
3. Biogenesis, is not need in organic chemistry.

Valid suggestions conveyed to Board of Studies in Chemistry

Paper I

1. Syllabus should include some emerging topics like audits related to pharmaceutical company and generation and preparation of audit reports.
2. Should include latest Instrumental techniques according to industrial demand.
3. Should include method like nitrogen estimation using kjeldhals method.

Paper II

1. Sample collection from sampling sites can be done like collection of sample from industry and nearby water samples should be done.

Paper III

1. Syllabus of Paper ii Bioanalytical Chemistry and Food Analysis is very basic there should be advancement in syllabus.
2. Carbon, Hydrogen, Nitrogen, Oxygen and sulphur analysis should be included in syllabus along with proximate and ultimate analysis.

Paper IV

1. Includes some emerging topics required in industry like Milk Analysis, impurity isolation and identification .
2. Topics like in Quality control and quality Assurance should include in Analytical Chemistry as it is in industry demand.

Academic Year: 2022-23

M.Sc Part - II (Biotechnology)

Sem III - Papers		Suggestions
Paper I	Applied Virology and Microbiology	No suggestions
Paper II	Environmental Biotechnology	No suggestions
Paper III	Biologics and Regulatory Affairs	<ul style="list-style-type: none">• This paper contains very overlapping topics among all 4 units so it should be changed to more concise and in précised manner.• Semester 3 paper 3 (biologics and biosimilar) has many overlapping topics in all units so it should be consized.
Paper IV	Molecular Enzymology and Enzyme Technology	Unit 3 and 4 has described many types of enzymes that makes confusion for exam point of view. So in my opinion for diagnostic enzyme there should be incorporation of those enzymes that have not covered in previous years would be more beneficial (example cancer) other metabolic enzymes are covered in previous years so some of them can be eliminated here.
Sem IV - Papers		Suggestions
Paper I	Nanobiotechnology	No suggestions
Paper II	OMICS & Systems Biology	I like the inclusion of "Systems Biology" and "Biologics and Regulatory Affairs" in the syllabus. At least one programming language such as Python should be taught in the Systems Biology subject (it is used to handle and analyze large Biological data sets).
Paper III	Drug Discovery & Clinical Study	No suggestions
Paper IV	Scientific Writing & Food Biotechnology	No suggestions

Overall Suggestions	<p><u>Remark: According to the received feedback, there were no any paper wise suggestions; hence the syllabus can be assessed on the basis of received overall suggestion.</u></p> <ul style="list-style-type: none">• There should be firm link between core biotechnology industries and academics so it can provide much better opportunities for students in terms of employment as it is very necessary to build the connection between industry and academics for betterment of students.• Absolutely the perfect and quite diverse syllabus. I must say best pattern and very exquisite and good for knowledge and development• It's good for students• Very well designed syllabus• No suggestions the syllabus is designed so well.• No need a suggestion for designing a syllabus it's fulfilled with all knowledge regarding biotechnology.• It is really helpful to enhance students' knowledge.• No suggestion• There is absolutely no problem with the syllabus designing but some Topics like functional genomics, cancer biology and bioinformatics should be included by looking at the future needs.• No suggestions Syllabus is very excellent ☐• More exposure to the research work should be given• No need to change.• Syllabus at par with expectations of industry.• For PG-Audits and regulations for pharmaceutical products. Advanced instruments should be incorporated.• In PG, more case based studies and field visits can help.• Industrial exposure along with lectures from industrial expertise helps the students to prepare for the next step to enter in the industry.• Syllabus is well organised to develop skills of associates• Need Hands on Instrument training during practical and industry level education & development

Academic Year: 2022-23

Class: F.Y. B.Sc. Biotechnology

	Sem I	Suggestions
Paper I	Biotechnology I	<ul style="list-style-type: none">Sem I P1 is lengthy,Some unit such as PTC and ATC are difficult because they contain many stepsSome units such as plant tissue culture and animal tissue culture are difficult because they contain many steps.
Paper II	Basics of Microbiology	No suggestion
Paper III	Basic Chemistry I	<ul style="list-style-type: none">Paper 3 in sem I is the syllabus too large and difficult to understand some conceptsThe content of syllabus is too vast paper 3 unit 3
Paper IV	Bio-organic Chemistry I	No suggestion
Paper V	Cell Biology	No suggestion
Paper VI	Genetics	<p>In paper 6 genetics and also genetic engineering are having lengthy and little complicated to understand at the level of UG it can be little pressuring for students when it comes to managing the time for each paper.</p> <p>New subjects are very interesting to learn like computer applications, virology.</p> <p>It has more detailed content to learn about new things.</p>
Paper VII	Environmental Science and Sustainable Development	No suggestion
Paper VIII	Computer applications in Biotechnology	<ul style="list-style-type: none">In SemI, Paper 8 of FY, introduction to computer programming language like JAVA or python regarding biostatistics. Careers in Biotechnology should be added. Mathematical courses like AP Calculus and relevant mathematical concepts should be taught. Biomechanics should be introduced and Bioengineering concepts should be added to the syllabus so as to make the students globally competent.The paper 8 computer application in biotechnology unit I is very vastContent for sem I paper8 unit 1 is vast

CHANGU KANA THAKUR

Arts, Commerce and Science College, New Panvel (Autonomous)

Re-accredited 'A+' Grade by NAAC (3rd Cycle-CGPA 3.61) 'College with Potential for Excellence' Status Awarded by University Grants Commission, 'Best College Award' by University of Mumbai

Internal Quality Assurance Cell (IQAC)

Academic Year: 2022-23

Class: F.Y.B.Sc. Biotechnology

	Sem II	Suggestions
Paper I	Biotechnology- II	No suggestion
Paper II	Microbiology and Immunology	The syllabus is really interesting but the Immunology topic is very vast....it needs to be some short.
Paper III	Basic Chemistry- II	No suggestion
Paper IV	Bioorganic Chemistry- II	No suggestion
Paper V	Molecular Biology and Genetic Engineering	<ul style="list-style-type: none">• It knowledgeable, paper 5 molecular biology and genetic engineering it's give the best practical knowledge• Molecular genetic quite hard to understand it should be easily understandable and teaching should be low time require for clearing concept
Paper VI	Plant and Animal Physiology	No suggestion
Paper VII	Laboratory Skills & Biostatistics	Same with sem 2 paper 7 unit 1 is vast
Paper VIII	Communication Skills	Semester 2 communication skills unit 1 is very vast

Overall Suggestions

1. No changes needed
2. Design of syllabus of UG is great as it covers all the basic concepts required for.
3. I found the syllabus satisfactory according to FY level all the basics which is needed is given...
4. Diagram should be more considered for reference and practical based questions should be too included...
5. I found the syllabus was satisfactory
6. Pr3 is difficult.. Clear the basic concepts.
7. For UG-More application based learning should be incorporated -Instrumental and Hands on training Practicals incorporated -Advanced instruments like HPLC, HPTLC should be incorporated.
8. UG- The syllabus has to be more detailed to prepare the students for the industrial exposure required in PG. More case based studies and field visits can help.
9. Need Hands on Instrument training during practical and industry level education & development
10. Some interdisciplinary subjects could be added
11. Include more skill based learning
12. Syllabus at par with expectations of industry.
13. Syllabus is very nice.

Janardan Bhagat Shikshan Prasarak Sanstha's

CHANGU KANA THAKUR

Arts, Commerce and Science College, New Panvel (Autonomous)

Re-accredited 'A+' Grade by NAAC (3rd Cycle-CGPA 3.61) 'College with Potential for Excellence' Status Awarded

Internal Quality Assurance Cell (IQAC)

Academic Year: 2022-23

14. Do side by side extra courses.
15. Very good syllabus.
16. Syllabus is well designed.
17. Please focus more on practical so that the gap between the Academic and Industrial requirements can be filled. Like Practicals regarding upstream process downstream process Process of purification for nucleus, proteins.

Suggestions	
Syllabus	Semester I
	1. Basics of classification should be added in the course 1
	2. Cell Biology is a important for the students so it was suggested that at first year introduction of cell biology is necessary
Specific topic	Sem I
	1. Cell biology details are not required
	2. Only Basics of cell biology should be added to the course
Syllabus	Semester -II
	1. Addition of Classification of chordates in details for the second semester
	2. Basics of genetics should be taken at first year level
	3.
Specific topic	1. Chordate classification for the second semester but it should be upto class and its example
General Feedback	Semester I and II
	1. Environmental science should be added at first year level
	2. Basics of Biotechnology must be the part of first year level

Overall Suggestions	<p><u>Remark: According to the received feedback, there were no any paper wise suggestions; hence the syllabus can be assessed on the basis of received overall suggestion.</u></p> <ul style="list-style-type: none">• The current syllabus is good but, keeps updating the syllabus every year based on the requirement of industries.• More of entrepreneurial avenues could be added• No suggestions.• Syllabus at par with expectations of industry.• It will be beneficial to add pharmacology as subject or as a topic and it could be included in the Drug discovery and development subject.• All members in the committee of design the syllabus have a good knowlege about the development, market, techniques that's why the selection of topic wise unit is good, it is easy for us to rectify the topic, but the problem is that we need more practical knowledge of industrial works, waste water management plant, sewage treatment plant they have the fully equipped stations, it is posible to make a small working station for practicals related to this field so that we get direct knowlege of it, I request you with all my student friends to add more practicals of animal biotechnology and plants biotechnology in the syllabus• Overall Good syllabus• Excellent syllabus• Include important and practical related topics in syllabus• PG Syllabus should be more focused on the practical skills and less on theory.• PG Practical should include some recent technologies available in the biotechnology field.• Recent technologies and concepts have to be introduced in practicals and theory• Update the Practical skills, knowledge for students improvement• For PG-Audits and regulations for pharmaceutical products. Advanced instruments should be incorporated.• In PG, more case based studies and field visits can help.• Industrial exposure along with lectures from industrial expertise helps the students to prepare for the next step to enter in the industry.• Syllabus is well organised to develop skills of associates• Need Hands on Instrument training during practical and industry level education & development
