Name of the Department: Chemistry

Class: Chemistry (Organic Chemistry)

Sem: V & VI

Stakeholders	Course Name (Course Code)	Suggestions forwarded to B.O.S	Action Taken on it
Students	Organic Chemistry USC5CH3 & USC6CH3	-----	-----
Teachers	Organic Chemistry USC5CH3	Remove the agricultural chemistry add other topic like retrosynthesis	Topic on retrosynthesis is included in USC6CH3. Removal of Agricultural chemistry was discussed and decided to retain in the syllabus due to its importance.
	Organic Chemistry USC5CH3 & USC6CH3	Biomolecules topics should be together.	Natural products shifted to Semester VI
	Organic Chemistry USC6CH3	Polymer unit can be omitted and can be added to F.Y.B. Sc. as it is very basic.	Polymer unit is removed from the syllabus
	Organic Chemistry USC5CH3	Instead of organometallics NGP content to be increased.	Organometallic topic is removed and chemistry of enolate is added

	Organic Chemistry USC5CH3	Introductory part of retrosynthesis can be added along with the existing synthesis.	Introductory part of reterosynthesis is added in the revised syllabus
	Organic Chemistry USC6CH3	Addition Chemistry of enolates	Topic on Chemistry of enolate is added
Employers	Organic Chemistry USC5CH3 & USC6CH3	To accommodate more practicals and purification techniques which industries use.	The suggestion was discussed but not accepted as the number of students enrolled in T.Y.B.Sc. These techniques are included in postgraduate syllabus
	Organic Chemistry USC5CH3 & USC6CH3	Add environment, safety aspects on chemical product and reaction	Planning of synthesis including safety aspects are introduced
	Organic Chemistry USC5CH3 & USC6CH3	Addition of nanomaterial science	Nanomaterial science is included in Physical and inorganic Chemistry Syllabus hence to avoid repetition it is not accepted.

Name of the Department: Chemistry

Class: M.Sc.-II Organic Chemistry

Sem: III

Stake Holders	Course Name (Course Code)	Suggestions forwarded to B.O.S	Action Taken on it
Students	Paper-I Theoretical Organic Chemistry-I (PSC3TOC)	Add nanotechnology or nano chemistry concept.	The suggestion was discussed but not accepted as the nanotechnology topic is irrelevant with topic theoretical organic chemistry.
	Paper-II Synthetic Organic Chemistry-I (PSC3SOC)	Delete specific topic (enamine Ylides) and add some theory related part.	The suggestion was discussed but not accepted as the enamines and ylides are important topic as NET/SET exam point of view.
	Paper-II Synthetic Organic Chemistry-I (PSC3SOC)	Click chemistry part should be in more detail because it will be very helpful for further study.	The suggestion was discussed but not accepted as click chemistry syllabus is sufficient in present syllabus.
	Paper-III Natural Products and Spectroscopy (PSC3NPS)	Synthesis in natural products is not required as it is long plan procedure and synthesis.	The suggestion was discussed but not accepted as the study on natural product is important for industry.
	Paper-III Natural Products and Spectroscopy (PSC3NPS)	Add some topic (natural pigment) by using natural pigment making cosmetic products.	The suggestion was discussed but not accepted as it is not relevant with topic.

	Paper-III Natural Products and Spectroscopy (PSC3NPS)	Prostaglandin part should remove and added in biogenesis	Prostaglandin part is kept in Paper-III as it is relevant to Natural Products.
	Paper-III Natural Products and Spectroscopy (PSC3NPS)	Delete some synthesis which is very lengthy and tricky to understand.	Deleted synthesis of reserpine and strychnine and synthesis of Colchicine and JH1 is added.
	Paper-III Natural Products and Spectroscopy (PSC3NPS)	Delete the synthesis topic from natural products	Some synthesis is deleted from syllabus i.e. synthesis of reserpine and strychnine.
	Paper-IV Bioorganic Chemistry (PSC3BIC)	Biomolecules-IV should replace with other topic relevant to industry.	Enzymes chemistry from biomolecule-IV is deleted and carbohydrates and lipids added.
	Paper-IV Medicinal, Biogenesis and Green Chemistry (PSC3MBG)	Biogenesis, is not need in organic chemistry	The suggestion was discussed but not accepted as biogenesis is important topic to study reactions in living organism.
Teachers	Paper-I Theoretical Organic Chemistry-I (PSC3TOC)	In stereochemistry part point 3.1 should be removed and instead of that small introduction to stereochemistry should be added.	3.1 Stereochemistry is replaced with basics of stereochemistry.
	Paper-II Synthetic Organic Chemistry-I (PSC3SOC)	Add Passerini reaction in multicomponent reaction.	The suggestion was discussed but not accepted as students already learn in Under Graduate level
	Paper-III Natural Products and Spectroscopy (PSC3NPS)	In natural products two remove Reserpine add something else.	Reserpine synthesis is removed and synthesis of colchicine is added.

Students	Paper I[PSC3QAC] (Quality in Analytical Chemistry)	<p>Syllabus should include some emerging topics like audits related to pharmaceutical company and generation and preparation of audit reports.</p> <p>2. Should include latest Instrumental techniques according to industrial demand.</p> <p>3. Should include method like nitrogen estimation using kjeldhals method.</p>	<p>Advanced Instrumental techniques like Scanning Probe Microscopy ,Atomic ForceMicroscopy,Scanning Tunneling Microscopy Ion Probe Spectroscopy Transmission electron Microscopy are replaced with old techniques in Paper II. Nitrogen Estimation from canned food using kjeldhals method, Interpretation of thermograms TGA,DTA .DSC (4 sample thermograms) Interpretation of spectra NMR, Mass, IR.UV visible (at least 4 sample spectra) are added in Practical.</p>

Teachers	Paper II[PSC3AIT] (Advanced Instrumental Techniques)	1. Sample collection from sampling sites can be done like collection of sample from industry and nearby water samples should be done.	Quality and requirements of potable water, direct and indirect pollutants for potable water reservoirs Regulatory requirements for packaged drinking water new topics are included in Paper IV Environmental Chemistry.
Employers	Paper III [PSC3BCF] (Bioanalytical Chemistry And Food Analysis)	1. Syllabus of Paper III Bio analytical Chemistry and Food Analysis is very basic there should be advancement in syllabus. 2. Carbon, Hydrogen, Nitrogen, Oxygen and sulphur analysis should be included in syllabus along with proximate and ultimate analysis.	Immunoassays- Theory, Principle, Applications and Limitations of RIA, ELISA and Fluoro-immuno assays. RTPCR and significance in diagnostics, DNA and other biologically important molecules. Analysis of spices (cloves, cinnamon, pepper, mustard) More advanced topics added in Paper III.
Alumni	Paper IV [PSC3POA] (Pharmaceutical and Organic Analysis)	1. Includes some emerging topics required in industry like Milk Analysis, impurity isolation and identification. 2. Topics like in Quality control and quality Assurance should include in Analytical Chemistry as it is in industry demand.	Laboratory accreditation: Criteria for laboratory accreditation, ICH guidelines- Q1A to Q1F (stability guidelines), Q3A to Q3D (Impurities), Q6A to Q6B (Specifications), Q10 (Pharmaceutical Quality System) ICH guidelines – Quality Risk assessment Q 9. New topics are included as per suggestions given by alumina.
