'College with Potential for Excellence' Status Awarded by UGC

'Best College Award' by University of Mumbai

## DEPARTMENT OF NCC

The Indian Army's youth wing, known as NCC, welcomes college and school students to enrol on a voluntary basis. This organization, which includes the Army, Air Force, and Navy Wing, is a Tri-Services one. To provide basic military training, the Soldier Youth Foundation of India enlists cadets from colleges, institutions, and schools.

Through its operations, this organization tries to instil certain ideals in students of all grades. Some ideals to be instilled through the exercise in all grades.

Our college provides a wholesome platform for our NCC Cadets to nurture in three years of training by providing regular parade practices, physical activities, Equipment's, Uniform & accessories, refreshment and conduct of various workshops which help them to mould their overall personality and the college also encourages cadets to get participated in district, state and national level camps.

Apart from the NCC regular Training syllabus, the introduction of "NCC Studies" as an optional subject for the Foundation Course is an important initiative taken by the Ministry of HRD/Ministry of Defence and UGC to introduce NCC as an elective subject at UG level from academic year 2013-14. Our College decided to start NCC as one of the elective courses at UG level from the academic year 2014-15. This interdisciplinary Elective Course is introduced for First and Second Year of B.A./B.Com./BMS/BAF/B.Sc/IT/CS Biotech as a credit basis semester pattern course namely: NCC STUDIES (Theory). Subject's schedule incorporates - National Integration, Drill, adventure training, environmental awareness, personality development, leadership, and weapon training. Positively, it should be noted that every student will have the opportunity to select credits of their own choice.

There are several advantages linked with the proposal that would benefit the students immensely. In addition to the development of discipline, leadership qualities, a strong character and a spirit of adventure, students opting for the subject would get opportunities to take part in outdoor camps and adventure activities and at the same time earn credits for their course.

It would also improve their career prospects as students with NCC background are considered as assets by government and corporate organisations.
